IDEAS Consortium Presentation and Breakout Session

The 3rd Biennial National Synergy Symposium

Presented by C.A.W, Inc.
Collective Impact to Improve Child Outcomes

To improve services for all children in Miami-Dade, from birth through age 8, by aligning information from multiple programs supporting them and their families.

Using Integrated Data to Align Early Childhood Practice, Research, & Policy

IDEAS.miami.edu
Brief 1

4 in 5 Miami-Dade children are touched by a range of early childhood programs.

83% of Kindergarteners had services (2015);
One 1 in 3 programs accredited (31% of 1,474 licensed);
Few of those rated achieve “high quality” (40 of 342 rated).

Brief 2

Consistent attendance matters.

Consistent attendees exceed expectations in pre-K;
Lower consistency, lower outcomes (pre-K, HS);
Pre-K attendance evident in K outcomes.

Brief 3

Zip code matters.

Risks vary widely by census tract;
Higher risks, lower K outcomes;
Some areas exceed expectations.
Why do children in some high-risk areas exceed expectations? Using the IDEAS child resilience index to unpack Miami-Dade racial equity.

Some Next Steps: Neighborhood Focus, Child Resilience, & Long-Term Crisis Impacts

How can all parents navigate the complexity of early learning opportunities? A "big picture" tool to help Haitian families access early childhood services.

What impacts will the COVID-19 crisis have on young children? Laying the foundation for long-term analysis with other integrated data sites.

Today’s Breakout: Designing an Early Learning Mapping Tool with a Focus on the NE Corridor

How can all parents navigate the complexity of early learning opportunities? A "big picture" tool to help Haitian families access early childhood services.

Welcome
• Tiffany Cannava, Together for Children NE Corridor EL Committee
• Rebecca Bulotsky Shearer UM / IDEAS Consortium

Presentation
• Chris Mader & Deepthi Puram, UM Inst. for Data Science & Computing

Moderators
• Leonie Hermantin, Sant La
• Mark Needle, IDEAS Consortium

Coordinator
• Astrid Pena Perez, UM / IDEAS Consortium

Thank you to Our Funders
The Children’s Trust
University of Miami U-LINK
The Miami Foundation (with Sant La)
IES funding Award # R305H140140

2. For this pilot tool we are focusing in the needs of Haitian families in the Northeast Corridor of Miami-Dade. In your opinion, which of these features would be most valuable? (Multiple Choice)

- early learning sites (11/37) 30%
- related programs for children and their service areas (18/37) 49%
- access of sites to public transit (8/37) 22%
- cultural relevance (16/37) 43%
- multi-lingual avails (11/37) 30%
- links to program videos (4/37) 11%
- links to user reviews (3/37) 8%
